

About the Authors

Laura Brawley is a rising junior majoring in international relations and minoring in Arabic. She is interested in grassroots diplomacy and conflict management with a regional focus on the Middle East. She hopes to pursue a career in public service after graduation.

Jessica Hutt is a graduating senior with a major in Communication and a minor in Social Innovation & Social Entrepreneurship (SISE). After college, she plans to join Walmart Connect as an Associate Account Manager on the Food team.

Jasmine Kiley graduated summa cum laude from Tulane University in May of 2024 with a Bachelor of Science in Biological Chemistry. Her undergraduate research centered around women's health issues. This area will also be a focus of her thesis and she pursues a Master of Philosophy in Medical Science at the University of Cambridge as a Fulbright Scholar in the United Kingdom. She will then return to the United States to pursue an MD at Vanderbilt University beginning in July of 2025 with the support of a Cornelius Vanderbilt scholarship. She plans to continue addressing research disparities pertaining to female anatomy and physiology throughout her career as a physician.

Laura Malagrino is a rising senior from Palo Alto, CA majoring in Art History, Classical Studies, and Italian with a minor in Anthropology. She currently works on the Pompeii I.14 project as a lead excavator and has plans to incorporate her work on the project into a senior thesis concerning the epigraphy and graffiti found on site. Her research interests include the cultural exchange between pre-roman populations on the Italian peninsula and the colonies of Magna Graecia through linguistics and material culture. Malagrino is a recipient of CELT's 2023 Summer Award for Faculty-Mentored Undergraduate Research and several NTC grants. Following her graduation, she plans to attend graduate school to continue working in classical archeology.

Lillian Milgram, a Newcomb Scholar at Tulane University, embodies dedication to environmental studies and community leadership. Having worked as a research assistant at the Ferris and Van Bael Labs, she's contributed to research in ecology and evolutionary biology. Beyond academics, she's President of the Green Club, fostering environmental awareness. She is also Social Media Coordinator for the Society for the Advancement of Chicanos/Hispanics and Native Americans in STEM and serves as Multicultural Council Chair for TUgente, promoting diversity. Lillian is a mentor to first-year students and volunteers with organizations like the Coalition to Restore Coastal Louisiana, showcasing her commitment to community engagement. Recognized for the Greenie Award for embodying Tulane's values, Lillian's passion for environmental conservation and inclusive community-building drives her toward impactful contributions in science and advocacy.

Isabella Webb is a member of the graduating class of 2025, where she is pursuing a degree in Ecology and Evolutionary Biology with a minor in Marine Biology. During her undergraduate studies, she served on the executive board of Women in Science and conducted research on marine ecosystems and animal behavior. Following graduation, she plans to attend veterinary school and continue her work with animal health care.
